Table of Contents

- **Executive Summary**
- **Safety & Regulatory Data**

  Lactium®

  – GRAS Statement
  – Label Claim
  – Safety of Lactium® as Peptone
  – NDI Approval
  – GMO Statement
  – BSE Statement
  – Allergen List
  – AFSSA Statement (French Food Health Agency)

  Lactium 90®

  – BSE Statement
  – Allergen List

- **Research Studies**

  Study 1 - Effects of a Bovine Alpha S1-Casein Tryptic Hydrolysate (CTH) on Sleep Disorder in Japanese General Population.

  Study 2 - Lactium® Rat Maze

  Study 3 - Two-dimensional ^{1}H-NMR and CD structural analysis in a micellar medium of a bovine as, αS1-casein fragment having benzodiazepine-like properties

  Study 4 - Conformational studies of a benzodiazepine-like peptide in SDS micelles by circular dichroism, ^{1}H NMR and molecular dynamics simulation.

  Study 5 - Characterization of α-casozepine, a tryptic peptide from bovine αS1-casein with benzodiazepine-like activity.

  Study 6 - Effects of a tryptic hydrolysate from bovine milk αS1-casein on hemodynamic responses in healthy human volunteers facing successive mental and physical stress situations.

  Study 7 - A tryptic hydrolysate from bovine milk αS1-casein improves sleep in rats subjected to chronic mild stress. (2005)

Study 8 - A tryptic hydrolysate from bovine milk αS1-casein improves sleep in rats subjected to chronic mild stress. (2006)

Study 9 - Ethological comparison of the effects of a bovine αS1-casein tryptic hydrolysate and diazepam on the behaviour of rats in two models of anxiety.

Study 10 - The effect of lactium® on biathlete training

Study 11 - Anxiolytic-like effects of the milk protein hydrolysate PRODIET™ F200 in healthy human volunteers.

Study 12 - Long-term effects of bovine milk αS1-casein hydrolysate (PRODIET™ F200) on healthy low and high stress responders.

Study 13 - Characterization of α-casozepine, a tryptic peptide from bovine αS1-casein with benzodiazepine-like activity.

Study 14 - Anti-stress efficacy of lactium® on stressed women

Study 15 - The Effect of Trip-to-zen on biathlete training.

Study 16 - Comparison Between Lactium® Versus L-Theanine

Study 17 - Comparison Between Lactium® Versus St. John's Wort & Kava Kava

Study 18 - A Natural & Original Slimming Solution

Study 19 - Efficacy of Lactium® on Sleep Disorders

- **Application & Analytical Studies**

Study 1 - Development of a Tea Drink with Lactium®

Study 2 - Lactium® stability & activity in Fruit Juice

Study 3 - Application of Lactium® and Recovery of the anti-stress peptide αS1-Casein (f91-100) in Yogurt & Beverages

Study 4 - Lactium® Activity in UHT-Milk

Study 5 - Lactium® Activity in Stirred Yogurt

Study 6 - Lactium® Activity Thermised Yogurt

Study 7 - Lactium® Activity in Chocolates

Study 8 - Lactium® Biaoactivity in Crispies before & after baking

Study 9 - Lactium® Solubility versus pH

Study 10 - pH & Thermal Stability of Lactium®

Study 11 - Dosage of αS1-Casein (f91-100) in Lactium® by HPLC Translation of Ingredia method #MLB C119B

- **Technical Documents**
  - **Patent Summary**
  - **Mechanism of Action**
  - **Lactium®**
    - – Process and Peptide
    - – Data Sheet
    - – Lactium® Flow Chart
  - **Lactium 90®**
    - – Technical Specifications
    - – Lactium 90® Flow Chart
    - – Certificate of Analysis
    - – Nutritional Values
